Please find below and/or attached an Office communication concerning this application or proceeding.

1. This application is in condition for allowance except for the following formal matters:

a. A substitute specification and the claims are required pursuant to 37 CFR 1.125(a) because they appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

b. Claim 2 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 1. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Allowable Subject Matter

2. Claim 1 would be allowable if rewritten or amended to overcome the objection to its translation, set forth in this Office action.

3. Claim 2 would be allowable if rewritten to overcome the objections, set forth in this Office action and to include all of the limitations of the base claim.

4. The following is a statement of reasons for the indication of allowable subject matter: The claims 1-2 are allowable over the prior art of record for at least the reason that the prior art fails to teach or suggest a palm-size game protection case comprising: an upper lid; a lower lid, wherein a main unit of the palm-size game is sandwiched in between them; and wherein: said main palm-size game unit comprises two buckling holes on each of a front side and a rear side; said lower lid comprises: two locking catches on each of its front end and rear end to engage respective buckling holes on
